TAKE PART IN EUSEW 2025

Be part of a community that shapes the EU energy policy! This hybrid, interactive event will take place both in Brussels and online on 10-12 June, offering an excellent opportunity for energy experts working in policy, industry, academia and other energy-related sectors to share expertise and create synergies.

EARN THE TITLE OF A SUSTAINABLE ENERGY DAY

Host your next clean energy event or initiative under the Sustainable Energy Days umbrella. Explore other community-driven events across Europe and beyond that have earned this prestigious title, engaging and inspiring local communities between March and June 2025.

ATTEND THE POLICY CONFERENCE

The EUSEW Policy Conference will gather industry representatives, policymakers, EU project partners, entrepreneurs, and members of civil society as speakers to explore the Clean Industrial Deal and the role of EU energy policy in driving a clean, competitive, and just transition. The deadline for submitting proposals has passed, but registration to attend will open in April 2025.

VOTE FOR AND CELEBRATE THE EUSEW AWARDS

The EUSEW Awards recognise excellence in renewable energy and energy efficiency across Europe, with categories for Innovation, Local Energy Action, and Woman in Energy. Finalists are selected by a jury, and winners are chosen by public vote. The deadline for applications has passed but you can participate in the online public vote from 29 April to 1 June.

CONNECT WITH THE COMMUNITY

Host a stand at the Energy Fair in Brussels or come by during the Policy Conference to meet other professionals advancing clean energy and climate targets, learn about their projects and gain the latest insights in the energy sector.

DRIVE THE ENERGY TRANSITION

Join the sixth edition of the European Youth Energy Day, a key feature of the Policy Conference designed for young professionals (aged 18-35) dedicated to clean energy and climate action.

EUROPEAN SUSTAINABLE ENERGY WEEK 2025

Organised by the European Commission, the European Sustainable Energy Week (EUSEW) is the biggest annual event dedicated to renewables and efficient energy use in Europe.

On 10-12 June 2025, the 19th edition of EUSEW will take place in a hybrid format, allowing both participants and speakers to attend either onsite or online under the theme: 'Powering a fair and competitive green transition'.

Since 2007, EUSEW has grown into a vibrant and diverse community of energy stakeholders, meeting annually to discuss the latest developments and best practices in the sector.

Do not miss this year's high-level Policy Conference, the EUSEW Awards, the sixth European Youth Energy Day, and opportunities to build meaningful connections at the Energy Fair.
